Good afternoon,

For 2023 the County has decided we are not offering individual electronic collections to each municipality. Instead, we will hold regional collection events in which residents can drop off their electronics. Designated locations, dates, and times will be shared as soon as plans are finalized.

New York State has an electronics recycling law in place and as a municipality, many of the electronics recyclers will work with you directly and help you get set up. Many provide free electronics pick up and supplies to municipalities that establish a year-round collection. We are most familiar with Sunnking Inc and their efforts to work with municipalities throughout the state. Below are a few electronic recyclers that service our area. Please note this is not an all-inclusive list.
